

7 July 1951

25X1

I hope you can give me a call before Friday of next week as I am off for Europe, leaving here Thursday, July 12th.

The chief reason for not having gone ahead with the idea of the advisory group was the action by the President in setting up a Psychological Strategy Board under Gordon Gray, with which I am working closely. I shall tell you more about it when we next get together.

Sincerely,

Allen W. Dulles
